Step back in time with our "Salamis Naval Battle Tour," a captivating journey inspired by Ares, the God of War. This tour is not just a trip; it's an immersive experience into one of the most pivotal naval battles in history - the epic clash between the united Greek city-states and the Persian Empire in 480 BC.

Your adventure starts at the Pnyx, the heart of Athenian democracy. This historic site, where over 30,000 citizens gathered to voice their opinions, sets the stage for understanding the democratic principles that were fundamental in shaping the course of Western civilization.

As we delve deeper into history, we explore the Trireme, the formidable Athenian ship that played a crucial role in naval warfare during that era.

Understanding the design and tactics of the Trireme offers insight into the Athenian naval prowess and their strategic victory under the leadership of Themistocles.

The climax of our tour is a visit to My Aigaleo (Poikilo Oros), a vantage point offering a panoramic view of the very waters where the Salamis Naval Battle raged. From here, you can envision the battle scene, where the Persian fleet faced its downfall against the smaller, yet strategically superior Greek forces.

Are you a history enthusiast? Our tour promises not just a narrative but an experience.

We strive to provide the most comprehensive knowledge about this monumental event. We believe that joining us on this journey will make you feel as if you are part of the battle, reliving the strategies and tactics that changed the course of history.
